

# Embody the Tiger!

## Be Bold

Never hesitate to let your true brilliance shine. Wear your stripes with pride and be the wholly unique person that only you know how to be.

## Be Patient

Remember that good things come to those who wait. Give everything enough time. Watch, learn, and wait for the right moment instead of rushing.

## Be Adaptable

Attack new challenges with everything you've got. Be versatile and embrace change. Accept what doesn't work, learn from it, and step forward in your life adventure.

## Be Original

No two tigers are alike. Be unique and unpredictable. Embrace your differences, think of them as something that makes you special.

## Be Unstoppable

Have confidence in your many abilities and know that you are a force of nature to be reckoned with. If one way doesn't work, approach from another.
